⚠ DANGER

To reduce the risk of electric shock:
Always unplug this product from the electrical outlet before cleaning.

⚠ WARNING

The Maximum Weight Capacity for the Queen Size is 500 lbs. and Twin Size is 350 lbs.

To reduce the risk of burns, fire, electric shock, or injury to persons:

1. Do not use this bed to support any equipment or items not related to its intended use.
2. Do not use near people using or wearing medical devices.
3. Unplug this device from the electrical outlet when not in use.
4. Close supervision is necessary when this airbed is used by or near children or disabled persons.
5. Use this bed only for its intended use as described in these instructions. Do not use attachments not recommended by the manufacturer.
6. Never operate this airbed if it has damaged cord or plug. If it is not working properly, has been dropped, damaged, or had contact with water, call customer service for assistance and/or repair.
7. Never operate where the pump, bed or cord are near heated surfaces, flammable fumes or flammable materials.
8. Never operate the bed when the pump vent or valve openings is blocked. Keep all air openings free of lint, debris or flammable materials.
9. Do not use outdoors or while standing in a damp area.
10. Do not operate where aerosol (spray) products are being used or where oxygen is being administered.
11. To disconnect, turn all controls to the off position, then remove plug from the outlet.

⚠ CAUTION

This device is operated with an electrically operated pump. The pump is thermal protected. Do not attempt to service yourself or open the pump case.

DO NOT use on surfaces where heat may cause a problem.

DO NOT operate the pump in enclosed spaces that are not well-ventilated.

DO NOT leave device unattended when in operation.

SERVICING OF DOUBLE-INSULATED PRODUCTS

In a double-insulated product, two systems of insulation are provided instead of grounding. No grounding means is provided on a double-insulated product, nor is a means for grounding to be added to the product. Servicing a double-insulated product requires extreme care and knowledge of the system, and is to be done only by qualified service personnel. Replacement parts for a double-insulated product must be identical to the parts they replace. A double-insulated product is marked with the words "DOUBLE INSULATION" or "DOUBLE INSULATED." The symbol (square within a square)  is also able to be marked on the product.
